

## **Colip Electric Since 1909**

### **Our History**

Colip Electric Company is proud to have participated in the growth and development of the Michiana area since 1909. Colip Electric was founded by Charles E. Colip, J. Franklin Colip, and Delbert L. Colip.

In 1912 they acquired the South Bend Chandelier Company and moved to 114 West Wayne Street.

By 1947 leadership had passed to the next generation, with Charles D. Colip (son of Charles E. Colip), serving as President/General Manager.

In 1976 Colip Electric merged with Tri City Electric, retaining Charles D. Colip as President. At that time Albert Suter joined Colip Electric as Vice President and Manager.

In 1988 Colip Electric was sold to Mead & White Electrical Contractors, Inc. of Bridgman, Michigan. Harold White is now President, with Albert Suter remaining as Vice President.

For more information about Colip, please visit our web site [www.colipelectric.com](http://www.colipelectric.com).
